50X1-HUM

1. Passive defense exercises and courses are being held at all the country's institutions, plants, and enterprises at this time. The Rumanian passive defense system has been reorganized recently by Soviet advisers.
2. All plants in Stalin (Brasov) are working at an accelerated pace, turning out arms and munitions. This is especially true of the munitions factory at Tohan. The Metrom plants of Stalin are turning out artillery shells and grenades. At the loading plants of Sfantul Petru, located in the middle of the forest, certain raw materials from the Soviet Union are being used for loading shells manufactured nearby, most of which are then shipped to the Soviet Union.
